

Product Change Notification

Document No. **PCN-A-20250825** Revision **1.0**

PCN TOPIC: L140AD Series Function Change Notification

PCN Type:

Product Improvement

Change Detail Descriptions:

Critical Change: Key component changes

To provide our customers better support and preserve the material consistency, Winmate has carried out a series of related function optimizations for whole L140AD series product. Which including LED indicators and physical buttons relocate, also the upgrade of the I/O cover for lockable function.

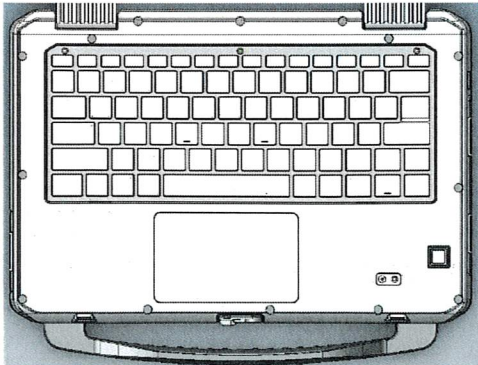

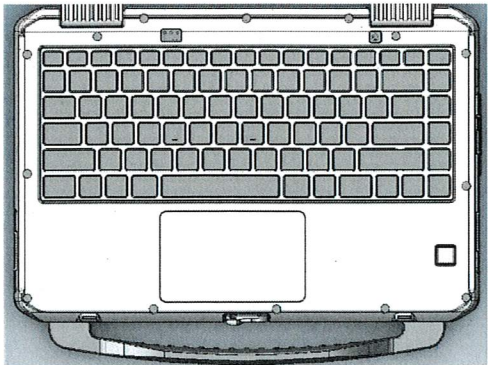

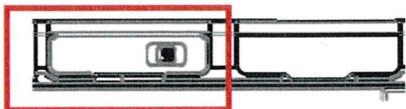

All the modification and upgrade have been well tested and remain well performance before we launch the update.

We wish these updates will provide customers with a smoother user experience with L140AD series Laptop.

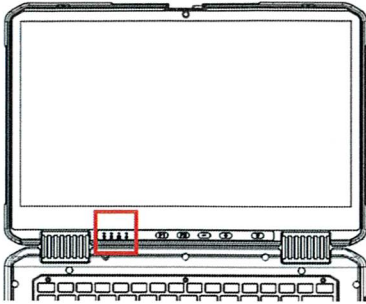

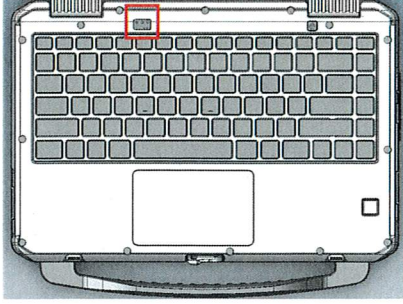

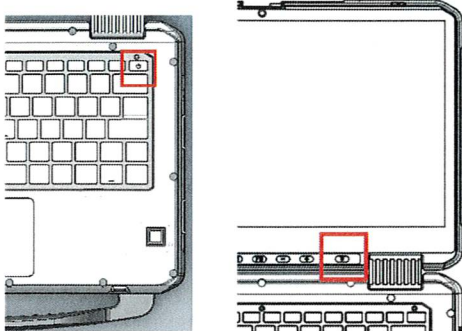

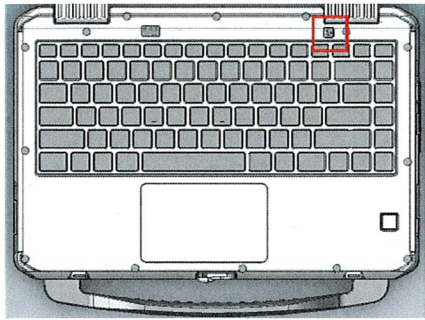

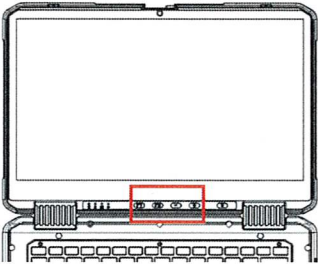

Change and Impact:

1. Keyboard layout change
2. LED indicators' position change
3. Power button's position change
4. Function buttons remove (except power button)
5. Lockable I/O cover design
