

Product Change Notification

Document No. PCN-A-20260204 Revision 1.0

PCN TOPIC:

COM Port and AC Input I/O Location Change on 22" and 24" Edge AI Panel PCs.

PCN Type:

Product Improvement.

Change Detail Descriptions:

To improve cable routing efficiency and ease of assembly during production, the physical location of the COM port and AC input on the 22" and 24" Edge AI Panel PCs will be adjusted.

This change is intended to optimize production line processes and does not affect system functionality, electrical performance, or product specifications.

Change and Impact:
